Additive Manufacturing as key driver for future innovations

A workshop on "**Additive Manufacturing as key driver for future innovations**" organized by Profs **Paulo Bártolo**, **Gideon Levy** and **Carl Diver** will take place on **Oct. 20, 2016 in the afternoon, starting at 2:00pm**, focusing on three major topics:

- *Understanding AM as an enabling technology for future innovations*
- *What are the most important R&D barriers to innovation?*
- *What are the key drivers to advance AM technology and innovation?*
